Waste details

Waste description, process and industry from which it derives (please include as much detail as possible). Please advise any hazards that we should be aware of when handling this material

Reason for disposal

Please state the form the waste takes (solid, liquids, sludge etc.)

EWC code
(mandatory)

Frequency

Quantity (m³/Te/t)

Animal By-Product Regulations 2011 category 1 2 3 n/a

Please state which of the following is available and provide a copy; Safety data sheet (SDS) Yes No

COSHH assessment Yes No accredited analysis Yes No

Is the composition likely to be variable? Yes No

Is the waste hazardous? Yes (If yes, industrial and commercial samples require a consignment note) No

If yes, what are the components, concentrations and hazard codes?

Method of delivery (tanker, ro-ro, skip, etc)

Which treatment centre would you like to use?

Odour	
Colour	
Appearance	
pH	

	Concentration (please specify units)		Concentration (please specify units)
COD		Lead	
Settled COD		Zinc	
BOD		Arsenic	
Suspended solids		Molybdenum	
Flashpoint		Mercury	
Chlorides		Phenols	
Sulphates		Hydrocarbons	
Ammonia		List 1 Substance	
Copper		List 11 Substances	
Nickel		MTX	
Chromium		Respirometry	
Cadmium		Metals	
Organic		Cardboard	
Plastics			
Rags		Any substances that may inhibit a biological process?	
Further Information			

Sampling

Has a sample been provided?	
Who has taken the sample?	
Date sample was taken	
Date sample delivered to GENeco	
Are there any special handling requirements?	
Is the sample representative?	
Type of storage vessel	
Capacity of vessel sampled	
Method of sampling and sampling point	
Number of samples taken (and degree of consolidation)	
Operating conditions at time, (eg, normal operation, shut down, maintenance and/or cleaning)	
Storage and preservation techniques	

Declaration

I confirm that the information provided is correct, sample provided (if applicable) is representative and hazards have been clearly labelled, and has been taken by a person who is technically competent to undertake the sampling process.
